Lahore, Pakistan

## SUMMARY

Senior Full Stack Developer with 2.5+ years of experience building scalable, cloud-native applications using MERN stack and micro-services architecture. Proven track record in leading cross-functional teams, optimizing CI/CD pipelines, and delivering user-centric solutions. Passionate about solving complex problems with cutting-edge technologies.

## EXPERIENCE

### Senior Full Stack Developer

June 2022 – Present

*Infostack Tech | Onsite*

*Lahore, PK*

- Designed and implemented scalable micro-services architecture, reducing API response time by 30%.
- Developed responsive, mobile-first front-end solutions using NextJS, React-Native, and Tailwind-CSS, improving user engagement by 25%.
- Automated CI/CD pipelines using GitHub Actions and AWS, reducing deployment time by 40%.
- Collaborated with cross-functional teams across 5+ time zones to deliver cloud-native solutions.

### Software Engineer (Web/Mobile)

February 2023 – March 2024

*Nexxt.ai | Remote*

*Brooklyn, NY*

- Architected solutions for complex business problems involving large-scale real-time and asynchronous applications.
- Managed the development and deployment of front-end/back-end services across multiple clouds, ensuring 99.9% up-time.
- Led a team of 5 developers to build products using NextJS, React-Native, and Tailwind-CSS, delivering projects 20% ahead of schedule.

## EDUCATION

### The Islamia University of Bahawalpur

Bahawalpur, PK

*Bachelor of Science in Computer Science*

*Nov. 2014 – June 2018*

- Relevant Coursework: Data Structures, Algorithms, Web Development, Mobile Apps Development

## PROJECTS

### VerifiedX.me | *NextJS, React-Native, Tailwind-CSS, NodeJS, AWS, MongoDB*

- Developed a comprehensive platform with an introductory website (verifiedX.me) and a user/team management system (app.verifiedX.me).
- Built cross-platform mobile apps (Android and iOS) using React-Native, ensuring seamless performance and consistent UI/UX.
- Integrated MongoDB for real-time data synchronization and user authentication, improving app responsiveness by 30%.
- Deployed the platform on AWS, ensuring high availability and scalability for 10,000+ users.
- Implemented CI/CD pipelines using GitHub Actions, reducing deployment time by 40%.

### m3dimaging.com / Lymphocam | *ReactJS, Django, PostgreSQL, AWS*

- Developed a health-related platform for medical imaging, focusing on the Lymphocam project for lymphatic system analysis.
- Designed and implemented a responsive front-end using ReactJS, ensuring accessibility for medical professionals.
- Built a robust back-end using Django and PostgreSQL, enabling secure storage and retrieval of medical imaging data.
- Integrated AWS S3 for scalable image storage, reducing load times by 25%.
- Collaborated with medical experts to ensure compliance with healthcare standards and regulations.

### Praos Health | *ReactJS, AngularJs, Micro-services, Serverless, MongoDB*

- Developed a healthcare staffing platform using micro-services architecture, enabling seamless scaling for 10,000+ users.
- Upgraded front-end features using ReactJS and AngularJS, improving user engagement by 15%.
- Integrated Serverless functions (AWS Lambda) for real-time notifications, reducing latency by 40%.
- Built reusable components, reducing development time by 20%.

**Tap-n-Tour** | *NextJs, React-Native, Tailwind, Nativewind, SQL, API, NodeJS*

- Developed a travel advisory and booking app with reusable pixel-perfect layouts, improving UI consistency across platforms.
- Integrated REST APIs for real-time booking and payment processing, handling 1,000+ concurrent users.
- Led a team of 3 developers, delivering the project 2 weeks ahead of schedule.
- Trained 2 junior developers in React-Native, improving team productivity by 25%.

**Ross Video Portal** | *NextJs, Tailwind, Zendesk-API, API, NodeJS*

- Built a ticketing/complaints app with an analytics panel, reducing issue resolution time by 30%.
- Integrated Zendesk APIs for seamless ticket management, improving support team efficiency by 20%.
- Developed reusable UI components using Tailwind-CSS, reducing front-end development time by 15%.
- Trained a junior developer in NextJS, enabling them to contribute to the project within 2 weeks.

**Rentique** | *React-native, Typescript, Wix React-native Navigation*

- Developed a car booking app with advanced features like real-time availability tracking and payment integration.
- Implemented Wix React-Native Navigation for seamless user experience, reducing app load time by 30%.
- Lead the project from inception to deployment, ensuring on-time delivery and high user satisfaction.
- Optimized API calls using caching strategies, improving app performance by 25%.

CERTIFICATIONS

**Jira Project Management**

Great Learning

*Issued April 2024*

**JavaScript Algorithms and Data Structures**

FreeCodeCamp

*Issued December 2023*

**Instagram System Design**

Scaler

*Issued January 2023*

**JavaScript for Beginners**

Scaler

*Issued November 2022*

TECHNICAL SKILLS

**Frontend:** ReactJS, NextJS, React-Native, Tailwind-CSS, Material-UI

**Backend:** Node.js, Django, REST APIs, GraphQL, gRPC

**DevOps:** AWS, GCP, Docker, Jenkins, GitHub Actions

**Databases:** MySQL, MongoDB, Firebase

**Languages:** JavaScript, Typescripts, Python, Java, SQL
